### AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-6. (Canceled)

7. (Currently Amended) A surgical [[instrument]] device comprising:

a body having a handle portion and a distal end with an instrument extending therefrom;  
and

a guard member disposed around the [[instrument]] body being selectively slidable along  
and around the [[instrument]] body, the guard member comprising:

a first opening formed for receiving a reduced diameter portion of the  
[[instrument]] body;

a second opening formed opposite the first opening for receiving the distal end of  
the [[instrument]] body;

a third opening formed between the first and second openings and extending to  
the first opening partially exposing the instrument; and

a means for locking the guard member in either an open position to expose the  
instrument, or a closed position to protect the instrument comprising  
threads.

8. (Currently Amended) The surgical [[instrument]] device of claim 7 further comprising a  
grip on the guard member.

Appl. No. 10/016,984  
Amdt. Dated 11/12/2004  
Reply to Final Office action of 9/17/2004

9. (Currently Amended) The surgical [[instrument]] device of claim 7 wherein the guard member is translucent.

10. (Currently Amended) The surgical [[instrument]] device of claim 8 wherein the guard member is translucent.

11. (Currently Amended) The surgical [[instrument]] device of claim 7 wherein the guard member is translucent and includes a plurality of protrusions formed on the exterior thereof.

12-21. (Canceled)

22. (Currently Amended) The surgical [[instrument]] device of claim 7 further including a plurality of protrusions formed on the exterior of the guard member, the protrusions facilitating movement of the guard member and reducing rolling capacity of the surgical [[instrument]] device.

23-28. (Canceled)

29. (Currently Amended) The surgical [[instrument]] device of claim 7 wherein the reduced diameter portion of the [[instrument]] body includes a first set of external threads and a second set of external threads.

30. (Currently Amended) The surgical [[instrument]] device of claim 22 wherein the reduced diameter portion of the [[instrument]] body includes a first set of external threads and a second set of external threads.
